

BEYOND Election 2016

[FaceBook.com/CadreUSA](https://www.facebook.com/CadreUSA)

What political adjustments, if any, will the Democrat Party and the Republican Party make going forward?

How will American electoral politics change, if at all, in the immediate future?

Will there be an adjustment in the way politics is done in the black community, and what is the future of the black vote?

BlackPolitics2.com is advocating for a broad based political discourse in order to explore the direction of American electoral politics in general and the black and minority communities in particular, going forward.

Therefore, we established a FaceBook page to help facilitate the discourse and promote the important conversation to the broadest feasible cross section of the public.

We cordially invite you to engage the political discourse, comment on the referenced questions, and feel free to pose questions in order to further the conversation. Spread the word...
